

Engineering services maker-trained team with worldwide mobilisation

Propeller-shaft services

We are the UK and Ireland sales agent and service station for SKF Marine GmbH components of the Simplex product range.

Our team of highly-qualified and experienced service engineers carry out sterntube seal and shaft seal services, and is available to travel worldwide.

Simplex Turbulo is the authorised Service Station for SKF Marine, Becker Marine Systems, and Parker Bestobell.

Propulsion services

Our engineers can carry out inspection and overhaul services for various types of thrusters, stabilisers and steering gear.

Rudder services

We are the authorised service station for Becker Marine Systems GmbH and we provide world-class services for all brands of rudder systems, which are usually based on Becker's original design.

Cryogenic Valves Services

Simplex Turbulo is the authorised service station for Parker Bestobell cryogenic valves and can carry out all types of servicing for associated actuators.

Our team of engineers is certified by Parker Bestobell, following specialist training on cryogenic valves and actuators at Parker Bestobell's UK manufacturing facility.

With worldwide mobilisation and extensive stock, we provide services for:

- Supervision of valve installation
- Maintenance and repair of valves
- Valve and actuator troubleshooting
- Maintenance and repair of actuators

TOGETHER WE ARE **SLX** GROUP

SLX Group has been supporting the marine and power industries since 1935.

Sourcing only from leading European manufacturers, we supply engine spare parts, marine components, condition monitoring equipment, and cryogenic valves. Our team of specialised engineers carry out marine services for stern tubes and propulsion systems, and for cryogenic valves and actuators.

All work and components are guaranteed and we complement that with a £5m product liability insurance.
