

SIMPLEX

Double Pipe Airspace

The new simple, cost-effective and fast aft seal conversion by SKF Marine

The Original

Simple, cost-effective and fast

The latest SIMPLEX Airspace - achieve VPG 2013 compliance without complex conversion work or expensive bio oils.

- Convert conventional 3-ring or 4-ring aft seals to the latest "pollution free" Simplex Airspace
- No need for expensive bio oil (EAL approved mineral oil operation under VGP 2013)
- Low assembly efforts:
 - Existing oil supply pipes are simply converted to supply air
 - Oil is supplied from the sterntube
- No sterntube work necessary
 - No additional piping
 - No change of existing pipes (2 pipes)
 - No propeller shaft withdrawal
- Closed air chamber, therefore no operational air losses
- Includes dirt and net protection ring
